## MATERIAL SAFETY DATA SHEET C.O.S.H.H.

|   |  |
|---|--|
| <b>Product Name</b>   | LSX/LSG Fluid  |
| <b>North American Name</b>  | Molecular  |
| <b>Chemical</b>   | Proprietary Mix  |
| <b>Physiological Data</b>   | This product is not listed as a dangerous substance in the EEC directive that deals with the packaging and labelling of dangerous substances.  |
| <b>Flash Point</b>  | Non indicated by <i>The Merck Index (ninth edition)</i>  |
| <b>Specific Gravity</b>   | 1.023  |
| <b>Boiling Point</b>  | 187 Celsius  |
| <b>Irritant Effects</b>   | Nil for eyes and skin [separate components and final mix]  |
| <b>Toxic Data</b>   | Taken internally this product is harmless, probably because its oxidation yields pyruvic and acetic acids. <i>cf</i> Whitemore <i>Organic Chemistry</i> (New York 1951) )  |
| <b>Acute Inhalation Hazard</b>  | This product has no acute inhalation hazard  |
| <b>C.O.S.H.H.</b>   | indicate that there is <b>NO</b> short term exposure limit associated with this product  |
| Technical protective measures (bulk barrels) in line with all chemical products, ensure good room ventilation and do not leave containers open. |  |
| <b>First Aid</b>  | If swallowed it is very unlikely that harm will result.<br>Wash eyes with plenty of clean water. In the unlikely event irritation should occur, seek medical advice.<br>Wash contaminated clothing with ordinary soap and water. |
| <b>Industrial Hygiene</b>   | The usual safety precautions relating to chemicals should be observed  |
| <b>Disposal</b>   | Can be burned in incinerators with household refuse  |
| <b>After Spillage</b>   | Take up with absorbent material and dispose of according to instructions   |

**Storage**                      Store containers in a cool place. Keep apart from oxidising materials

**Handling**                      No special handling precautions are required but it is good practice to wear rubber gloves. As with all chemicals, eyewash with clean water should be readily available

**Road Accidents**                      **Observe the usual precautions**  
Stop the engine  
Notify the police & fire brigade  
Warn other road users and keep public away from the area. Its presence on the road surface may increase the tendency to skid. Transfer as much as possible to other containers and flush away any residue with plenty of water.

**Transport**                      This product is not regarded as hazardous for transportation
